

Welcome to Plastic Surgery

Your doctor has referred you to see a plastic surgeon. You will be seeing one of our plastic surgeons for your first visit. Your first visit will be a consultation to evaluate you and see if you need surgery or another type of treatment.

Please be so kind as to arrive 15 minutes early to allow time to register. If you are being seen for breast reduction or breast reconstruction (after breast cancer or other surgery), please arrive 45 minutes early to allow time to view an informational video before your appointment.

We are located at Kaiser San Jose in Building A, Station 1. Please see the map for additional directions. Please visit our homepage for more information.

We look forward to meeting you and helping you to thrive.
