San Jose, CA 95123

SECONDARY LENS IMPLANT POSTOP INSTRUCTIONS

PREOP MEDICATIONS:

- Please refer to the directions on the medication labels.

POST OPERATIVE INSTRUCTIONS:

- Start POSTOP medications as instructed on your medication label(s).
- Do not be alarmed if your vision is blurry the first few days following the surgery, as long as the eye feels well, you are OK.
- Follow-up with your doctor as scheduled unless the eye is developing severe pain.

HELPFUL INFORMATION:

- It may be difficult to open your eye and you may have double vision for 1 to 2 days.
- Your vision will be blurry for 1 to 2 weeks.
- Remember, everyone heals differently, be patient, it takes an eye 4 to 8 weeks to heal.

RESTRICTIONS:

- No swimming under water for 1 month.
- You may resume your normal activities as soon as you feel up to it.
