

Fresno Area Adult Seasonal (Usual) & H1N1 Flu Clinics

We have the H1N1 vaccine, which is now available to anyone who would like to receive the vaccine.

You may request the seasonal flu vaccine or H1N1 vaccine at your regularly scheduled appointment with your primary care provider or OB/GYN provider, OR... you may walk in to any of our facilities, Monday through Friday from 9 a.m. – noon or 2 – 4 p.m.

Please go to the area where your primary care or OB/GYN provider is located and ask for a flu shot. No appointment is necessary.

Please wear short sleeves, bring your Kaiser Permanente card and photo identification with you.
